10:30 - 11:00	Networking Coffee Break

11:00 -
12:15

Panel 2:
Cybersecurity on The Cloud: “Will My Data Be Secure?”

Companies considering adopting any new data solutions are rightly concerned about cybersecurity and data privacy. How secure is the data on the Cloud and what do adopters need to know and prepare to use these new platforms.

This panel will include technical experts from a range of cloud service providers who will explain, in accessible language, the security benefits that the cloud can offer to smaller companies.

This discussion is intended to be more interactive and we encourage questions from the audience - take this opportunity to have your queries answered by industry experts!

Moderator: **Ervin Roberson**, Senior Manager at PricewaterhouseCoopers Malaysia (PwC)

Cybersecurity Experts:

- **Kelvin Boey, PMP** - Senior Cloud Specialist, Manageability & Security (APAC) at Oracle
- **Shaibal Saha**, APAC Head - IAM Services at IBM

Q&A – Slido

12:15

Concluding Remarks
Siobhan Das, Executive Director, AMCHAM
